Acknowledgements	1	4.0 Radiation treatment machine requirements by 2028	29
Foreword	4	4.1 Facilities with most immediate requirement for capital plans	33
Garth Matheson, CCO	4	4.2 Facilities with available bunkers	34
Derek Finnerty, Patient and Family Advisor to the Expert Committee	5	4.3 Facilities with no bunkers available	35
Joanne MacPhail, Patient and Family Advisor to the Expert Committee	6	5.0 Future state of radiation treatment equipment	36
Executive Summary	7	5.1 One machine satellite programs	37
Planning principles	7	5.2 Impact of technology on radiation treatment	39
Recommendations	9	5.3 Radiation equipment replacement grant funding	41
1.0 Introduction	11	6.0 Recommendations	43
2.0 Progress since the 2012 Strategy	16	6.1 Risks	45
2.1 New machines in the province	17	6.2 Conclusions	45
2.2 Extended operating hours per day	17	References	46
2.3 Radiation equipment replacement grant funding changes	18	Appendix	47
3.0 Capacity planning for radiation treatment	20	Appendix 1 – Referral patterns	47
3.1 Projected future treatment volume to reach treatment need by 2028	22	Appendix 2 – Facility level estimates	49
3.2 Estimated provincial machine throughput	25	Appendix 3 – Glossary	50
3.3 Determined treatment machine volume	27	Appendix 4 – Radiation Treatment Machine Inventory	51
