2021	18	2	2	1	2	0	0	0
2022	*	2	0	1	2	0	0	0

### Notes:

(a) If there was no public posting of open residency positions in journals, newsletters, or websites, please indicate this with an asterisk (\*) below in the number of candidates applying (e.g. 10\*).

(b) Centres associated and accredited within a multi-centre program (e.g. University of Toronto program, Northern Ontario School of Medicine program) need not fill out an individual template per Centre. This will be completed by the Program Director of the overall Program.

### Table References:

- **# Applicants** refers to the total number of applicants that have applied to the Program during the calendar year
- **# Other** refers to the number of residents who *secured* medical physicist positions of various types including clinical, academic, and industry positions within the calendar year
- **# Certified** refers to residents becoming certified to the level of Member of the Canadian College of Physicists in Medicine (MCCPM), or equivalent international certification (e.g. ABR Part 3 exam) in the given calendar year. For candidates pre-certified before admission to the Ontario program, please only count them in Year 1 of their training in Ontario.
